SUMMARY

AI engineer and full-stack developer working remotely with businesses in the USA, UK, Canada, Australia and Spain. Builds AI features into real products: LLM integrations with Claude, ChatGPT, Gemini and the Aimnow AI API, prompt pipelines, and on-device computer vision. Ships them on fast, SEO-ready stacks with Next.js, TypeScript, WordPress and GoHighLevel, and manages 50+ business websites with zero critical downtime.

SKILLS

AI and LLMs	Claude, ChatGPT, Gemini, Perplexity, Grok, Aimnow AI API, prompt engineering, AI-assisted development
Computer vision	On-device face detection, lighting correction, CIELAB and CIEDE2000 color matching
Web development	Next.js, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, PHP, Java
Databases and APIs	PostgreSQL, REST APIs, webhooks, CRM integrations
CMS and builders	WordPress (custom plugins), GoHighLevel, Odoo ERP, Shopify, Squarespace, Wix, Brizy, Lovable
SEO and performance	Technical SEO, Core Web Vitals, Lighthouse, JSON-LD schema, programmatic SEO, Google Search Console, Google Analytics 4, Google Business Profile
Infrastructure	DNS, SSL, domain and hosting migrations, caching, backups, security hardening
Marketing	Social media management, content calendars, video editing, graphic design, copywriting

PROJECTS

TEINT | Creator and Full-Stack Engineer | teint.online 2026

- Built a foundation shade finder that reads skin tone from a selfie entirely on the device.
- Implemented face detection, lighting correction and CIEDE2000 color matching across 32 brands, with indexable SEO pages.

Chevy Your Way | Full-Stack Developer | chevyyourway.com 2026

- Built a Next.js and TypeScript storefront for a US Chevrolet dealer, letting buyers in any state shop and take home delivery.
- Designed a multi-step lead form for model choice, finance pre-approval and trade-ins.
- Generated delivery pages for all 50 US states with programmatic SEO, built through an AI-driven workflow in Claude.

Moodvies | Creator and Full-Stack Engineer | moodvies.online 2026

- Built a Next.js mood-based movie recommendation app with external API caching, fast queries and zero layout shift on mobile.

Notchify | Creator and Frontend Engineer | notchify.online 2026

- Designed and launched the site for a free, open-source macOS notch utility, with a working in-browser demo and 100/100 Core Web Vitals.

Pixel Paradox | Creator | youtube.com/@pixel-paradox-official 2025

- Created a YouTube Shorts gaming channel and manage its content strategy, publishing and audience growth.

EXPERIENCE

Lead Web Developer and AI Plugin Architect | Gaucin Properties | Spain 2026

- Designed and built the full luxury real estate platform at gaucinproperties.com.
- Built custom property search and filtering plugins powered by the Aimnow AI API, and optimized multilingual listings.

AI Developer and Integration Specialist | AIMNOW AI | Remote 2026

- Developed custom AI plugins, REST API connectors and prompt pipelines linking AI models to CMS platforms.

Web Developer | RAM Digital | USA 2026

- Converted legacy WordPress websites into modern TypeScript apps using Lovable and prompt engineering, meeting SEO and speed standards.

WordPress Developer and Social Media Manager | Talking Counselling UK | United Kingdom 2026

- Restructured the site for local technical SEO, redesigned it, and improved the appointment booking flow and social reels.

Web Developer and Custom Plugin Engineer | Tony Tribble and Go To Therapy UK 2026

- Replaced heavy third-party plugins with custom PHP code, reaching a 98/100 Lighthouse score.
- Built secure patient intake and booking plugins, making consultation checkout 72% faster.

Digital Marketing Specialist and Web Developer | Momentum Agency AI | Michigan, USA 2025

- Built downriverinjurylaw.com, a law firm website, in GoHighLevel; wrote SEO blogs, scheduled social campaigns and fixed client sites.

GHL Specialist | Junk Genies | Florida, USA 2025

- Built a junk removal company website in GoHighLevel with service copy, inquiry forms and AI-generated images.

Web Support Specialist | Brand Guruz | Canada 2025

- Fixed caching, lazy loading, DNS and email routing issues, and migrated live domains to Hostinger with zero downtime.

Web Developer and Odoo Specialist | Melbourne Actors Lab | Australia 2025

- Migrated the full website from WordPress to Odoo ERP and set up automated enrollment, scheduling and billing.

Digital Marketing Specialist | Revmatic | Montreal, Canada 2025

- Built client landing pages, multi-step lead forms and CRM automations in GoHighLevel.

Web Developer | Growth Done Differently | Remote 2025

- Built a Next.js inbound marketing platform with lead qualification funnels and analytics tracking.

WordPress Developer and Infrastructure Lead | Shield Management | Ohio, USA 2025

- Manage and develop 50+ business websites with zero critical downtime, plus Google Business Profiles, server administration, backups and technical SEO.

Web Developer and Social Media Manager | Revinwa | Vancouver, Canada 2025

- Upgraded client websites, improved regional SEO, and produced content calendars, graphics and reels.

WordPress and Web Developer | Dodor Services, Dave Wentworth Associates, Zyvera, 417 Boom, Go You Club, Timothy Artman 2025

- Built and maintained business websites on WordPress, Brizy, Shopify, Squarespace and Wix, with custom code, lead forms and SEO copy.

WordPress Developer | Astra Worldwide, Philippines and Mindsheep, Australia 2024

- Built a corporate website from scratch with domain and hosting migration, and rebuilt a client site as a fully editable 1:1 replica.

EDUCATION

Bachelor of Science in Information Technology | University of Saint La Salle | Bacolod 2020 - 2024

- GPA: 1.5
